## IDLER STAND FEATURES

- 01/ Open end base allows access for single or double bolt holes.
- 02/ No fugitive material pinch points between roll and frame.
- 03/ Narrow roll gap eliminates pinch point, which damages belt.
- 04/ Non-clogging center stands.
- 05/ Base angle sheds material and prevents build-up.
- 06/ Corner or inset weld available.

# APPLICATION-SPECIFIC IDLER SEALS

## COLORS AND APPLICATIONS

SEAL COLOR	SEAL NAME	APPLICATION EXAMPLES	BENEFITS
	Standard	Traditional material handling not described above. Typically 80-90% of applications.	While testing our application specific models, we redesigned our standard for the best bearing protection yet.
	Wet	Wash or dredge processes. Frequent washdowns.	Special double contact seal defends bearing from moisture penetration.
	Dry	Crushing and screening producing dust with minimal fines.	Oiled and contact seal protects bearing from dry particles and grit.
	Eco	Overland or long distance material handling sites.	Seal reduces drag and roll resistance for less horsepower at startup/operation.
	Titanium™	Washed sand, fines removal or dredging. Most extreme conditions.	Combination of design characteristics from wet and dry seals for ultimate bearing protection.

# ORDERING GUIDE: SUPERIOR IDLERS

Superior makes ordering easy with a simple number and letter system so you can easily jot down the idlers you need and relay them to our sales staff. Superior manufactures many different styles of CEMA B, C, D, E, and F idlers along with a full line of CB-504 style bearing idlers and rollers. Simply follow the procedure below and you'll be on your way to placing an accurate order.

**C5 - 35 E - 36 - MOX - TTM**

**CEMA RATING**  
(or Series) - Specify either CEMA B, C, D, E, or F.

**ROLL DIAMETER**  
Specify either 4, 5, 6, 7, or 8 for the corresponding roll size diameter.

**TROUGHING ANGLE**  
Troughing Angle - Specify either 20, 35, or 45 for the corresponding troughing angle. V-Return - Specify either 10, 15 for the corresponding troughing angle. For standard return and live shaft products disregard the angle.

**IDLER TYPE LETTER**  
Specify the idler identification letter for the particular idler you may need from the list on the right. →

**BELT WIDTH**  
Specify either 18, 24, 30, 36, 42, 48, 54, 60, 72, 84, 96, 108, or 120 depending on or CEMA rating.

**ROLL STYLE**  
Specify either "MOX" for Moxie® Rolls, "DT" for Double-Tube Idler or "DX" for DX Idler.

**SEAL STYLE**  
Specify either "WET" for Wet Seal, "DRY" for Dry Seal, "ECO" for Eco Seal, or "TTM" for Titanium™ Seal.

## IDLER TYPE LIST

- E.....Troughing Idler Equal Length Rolls
- EA.....Self-Aligning Troughing Idler
- BA.....Bi-Directional Aligning Troughing Idler
- EI.....Rubber Cushion Troughing Idler
- GO.....Offset Troughing Idler
- GOI.....Rubber Cushion Offset Troughing Idler
- U.....Troughing Idler Unequal Length Rolls
- UI.....Rubber Cushion Troughing Idler Unequal Length Rolls
- P.....Feeder / Picking Idler
- PI.....Rubber Cushion Feeder/Picking Idler
- RET.....Return Idler
- FLT.....Flat Carrier Idler
- RETA.....Return Self-Aligning Idler
- RETI.....Return Rubber Cushion Idler
- FLTI.....Flat Carrier Rubber Cushion Idler
- CM.....Low-Profile Channel Mount Idler
- CMI.....Channel Mount Impact Low Profile Idler
- SM.....Low-Profile Standard Mount Idler
- SMI.....Standard Mount Impact Low Profile Idler
- RETAI.....Return Self-Aligning Rubber Lagged Cushion Idler
- EW.....Wire Rope Idler
- EWI.....Rubber Cushion Wire Rope Idler
- VPE.....Variable Pitch Idler
- VPEI.....Rubber Cushion Variable Pitch Idler
- RETU.....Urathon® Return
- RETUSP.....Spiral Urathon® Return
- RETV.....V-Return Idler
- RETVI.....Rubber Cushion V-Return Idler
- IVR.....Inverted V-Return Idler
- CMP.....Low-Profile Channel Mount Feeder/Picking Idler
- CMPI.....Rub. Cush. Low-Profile Chnnl Mount Feeder/Picking Idler
- IM.....Low-Profile Inboard Mount Idler
- IMI.....Rubber Cushion Low-Profile Inboard Mount Idler
- SO.....Underground Box Frame Idler
- SB.....Underground Single Beam Idler
- MOX.....Moxie® Roll (i.e. C5-35E-30MOX)
- LS.....Live Shaft Roller (i.e. LS-536)
- LSI.....Rubber Cushion Live Shaft Roller (i.e. LSI-548)
- LSB.....Live Shaft Beater (i.e. LSB-530-107)

# COMPONENTS SHIPPING METHODS

CARRIER APPROVED METHODS THAT REDUCE DAMAGE DURING TRANSPORT

## IDLER METHODS

## PULLEY METHOD

- » One standard packaging style speeds shipping process
- » One piece pallet versus splicing two pallets together
- » All parts of pulley confined to pallet (no exposed shafting)
- » Shafts protected with nylon sleeve
- » Core Systems® Design projects use custom-designed packaging

## CUSTOM PACKAGING

We certainly understand that every customer's packaging needs are unique. As always, we are here to provide the best solution to packaging your purchased products. Please ask us about custom packaging!

# ORDERING GUIDE: ROLL INTERCHANGE

Superior makes ordering easy with a simple number and letter system so you can easily jot down the idlers you need and relay them to our sales staff. Superior manufactures many different styles of CEMA B, C, D, E, and F idlers along with a full line of CB-504 style bearing idlers and rollers. Simply follow the procedure below and you'll be on your way to placing an accurate order.

Add "TTM", "DRY", "WET", "LOW" to the end of the part number to add application specific seals.

Add "MOX" to the end of the part number to replace steel cans with Moxie Rolls.

Recommended bolt pattern, see "Return & Flat Brackets Styles" section for minimum and maximum dimensions.

Individual bracket weights are listed on "Return & Flat Brackets Styles" section. Brackets sold separately.

# SPECIALIZED IDLER DESIGNS

## SUPERIOR INGENUITY

Examples of custom conveyor components:

- » Modified bolt centers
- » Neoprene & rubber coating
- » Special roller lengths
- » Various shaft styles
- » Special dimensions
- » Wire rope idlers
- » Custom return rolls to fit existing brackets
- » Special guide idlers
- » Scale quality idlers
- » Lagged Return Rollers

## POWDER COATED PROTECTION

To ensure the best quality on all of our conveyor components, all of our idlers are powder coated.

## FASTEST LEAD TIMES

- » Quickest deliveries in the industry.
- » In need of standard or specially designed idlers and pulleys? Superior can eliminate the hassles of finding the right component for any application.

# IDLER SELECTION PROCEDURE

## INITIAL SELECTION; STEPS 1, 2, AND 3:

Select idler class by comparing calculated idler load with idler load ratings (CIL and CILR) from Tables 2-11 through 2-14. Select impact idler class, if necessary, as shown in Step 3. CEMA idler manufacturers have standard designs meeting these load ratings and dimensional standards shown in tables listed in this publication.

## BEARING L10 LIFE CORRECTION; STEPS 4, 5, AND 6:

Factors K2 (Fig. 2.5) and K3A (Fig. 2.6) are multiplying factors used to adjust basic L10 life rating of idler class selected. Factor K2 is based on percent of idler load and K3A is factor of actual roll speed (RPM). Factor K3B (Fig. 2.7), step 5 is an optional step showing advantage of using larger diameter rolls. It can be used as a multiplier to save repeating step 5 if a larger diameter roll is used.

## DETERMINE POTENTIAL IDLER LIFE; STEP 7:

Factors K4A (Fig. 2.8), K4B (Fig. 2.9), and K4C (Fig. 2.10) show conditions which will affect idler life and are independent of bearing L10 life, idler load and idler class. Use these figures to evaluate the potential expected idler life.

## STEP NO.1 TROUGHING IDLERS SERIES SELECTION

Calculated Idler Load (lbs.) = CIL = ((WB + (WM x K1)) x SI) + IML

Where:

WB= Belt weight (lbs./ft.) use actual or estimate from Table 2-1

WM= Material weight (lbs./ft.) = (Q x 2000) / (60 x V)

Q= Quantity of material conveyed (Tons per hour)

V= Design belt speed (FPM)

SI= Spacing of idlers (ft.)

K1= Lump adjustment factor (see Table 2-2)

Note: Actual weight of lump should be compared with WM value. In situations it may be necessary to use actual lump weight as WM.

IML= Idler misalignment load (lbs.) due to idler height deviation and belt tension = (D x T) / (6 x SI)

Where:

D= Misalignment (inches)

T= Belt Tension (lbs.)

SI= Idler Spacing (feet)

When an idler is higher than the adjacent idler, a component of belt tension will add load to that idler. The amount of height deviation can vary with the installation and type of idler. CEMA publication on "Conveyor Installation Standards" (Appendix D, "Belt Conveyors for Bulk Material," Fifth Edition or later) lists recommendations on structure misalignment.

Use CIL and select proper series of idler from Tables 2-11 through 2-14. CIL value should be equal to or less than idler rating.

This troughing idler selection procedure for calculating idler load does not include the following:

1. Impact force on idler at loading points.
2. Effect of belt transitions (head and tail pulley) on idler load.

**TABLE 2-1 WB ESTIMATED AVERAGE BELT WEIGHT FOR MULTIPLE AND REDUCED PLY BELTS PER UNIT LENGTH**

BELT WIDTH (INCHES)	MATERIAL CARRIED, LBS./CU. FT.		
	30-74	75-129	130-200
18	3.5	4	4.5
24	4.5	5.5	6
30	6	7	8
36	9	10	12
42	11	12	14
48	14	15	17
54	16	17	19
60	18	20	22
72	21	24	26
84	25	30	33
96	30	35	38

1. Steel cable belts increase above value by 50%.
2. Actual belt weights may vary with different constructions, manufacturers, cover gauges, etc. Use the above values for estimating. Obtain actual values from the belt manufacturer whenever possible.

**TABLE 2-2 K1 LUMP ADJUSTMENT FACTOR**

MATERIAL LUMP SIZE (INCHES)	MATERIAL WEIGHT, LBS./CU. FT.						
	50	75	100	125	150	175	200
4	1.0	1.0	1.0	1.0	1.1	1.1	1.1
6	1.0	1.0	1.0	1.1	1.1	1.1	1.1
8	1.0	1.0	1.1	1.1	1.2	1.2	1.2
10	1.0	1.1	1.1	1.1	1.2	1.2	1.2
12	1.0	1.1	1.1	1.2	1.2	1.2	1.3
14	1.1	1.1	1.1	1.2	1.2	1.3	1.3
16	1.1	1.1	1.2	1.2	1.3	1.3	1.3
18	1.1	1.1	1.2	1.2	1.3	1.3	1.4

## STEP NO. 2 RETURN IDLER SERIES SELECTION

Calculated Idler Load (lbs.) = CILR = (WB x SI) + IML

Use CILR and select proper series of idler from Tables 2-11 through 2-14. CILR should be equal to or less than return idler rating.

## STEP NO. 3 IMPACT IDLER SERIES SELECTION

For homogeneous material without lumps:

Impact Force (lbs.) = F = (0.1389)Q√H

Where:

Q= Rate of flow (ST/hr)

H= Height of fall (ft.)

The calculated impact force, (F) is then multiplied by an impact idler spacing factor, f (Table 2-3), to determine the impact force on one idler.

Unit Impact Force (lbs.) = Fu = F(f)

**TABLE 2-3 IMPACT IDLER SPACING FACTOR**

SI IMPACT	FACTOR f
1' 0"	0.5
1' 6"	0.7
2' 0"	0.9
>2' 0"	1

# IDLER SELECTION PROCEDURE

Use this unit impact force,  $F_u$ , and select proper series of impact idler from Tables 2-11 through 2-14.  $F_u$  should be equal to or less than idler rating.

For material containing large lumps:  
 Impact Force (lbs.) =  $F = W + (2kWH)^{1/2}$   
 Where:

W= Weight of lump (lbs.)

H= Height of fall (ft.)

k= Spring constant for specific idler type (lbs./ft.)

Use calculated energy rating, WH, and maximum lump size to select proper series of impact idler from Table 2-4. Both WH and lump size should be equal to or less than energy rating and maximum lump size.

Note: Both cases (material without lumps and material containing large lumps) should always be considered and the heavier duty idler selected to insure adequate impact resistance capabilities.

**TABLE 2-4 ENERGY RATINGS FOR IMPACT IDLERS**

3-ROLL RUBBER IMPACT IDLERS (EQUAL LENGTH ROLLS)		
CEMA Series	WH (lbs.-ft.)	Maximum Lump Size (in.)
B	40	4
C	160	6
D	240	8
E	460	12

## STEP NO. 4 K2 = EFFECT OF LOAD ON PREDICTED BEARING L10 LIFE

When Calculated Idler Load (CIL) is less than CEMA load rating of series idler selected, the bearing L10 life will increase.

Figure 2-5 Effect of Load on Predicted Bearing L10 Life

## STEP NO. 5 K3A = EFFECT OF BELT SPEED ON PREDICTED BEARING L10 LIFE

CEMA L10 life ratings are based on 500 rpm. Slower speeds increase life and faster speeds decrease life. Figure 2-6 shows this relationship.

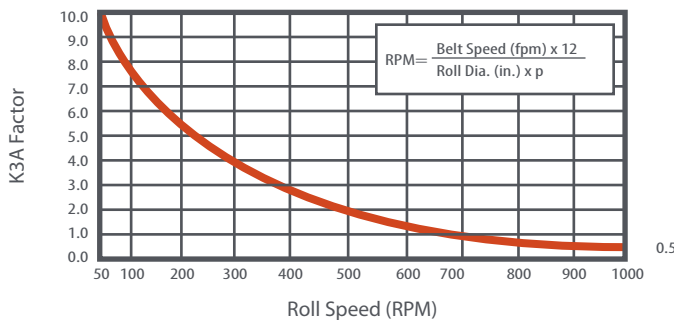

Figure 2-6 Effect of Belt Speed on Predicted Bearing L10 Life

## STEP NO. 6 K3B= EFFECT OF ROLL DIAMETER ON PREDICTED BEARING L10 LIFE

For a given belt speed, using larger diameter rolls will increase idler L10 life adjustments for various roll diameters using 4" diameter as a value of 1.0. Percent life increase can be calculated for each roll diameter increase.

Example: 1.5 for 6" diameter or 1.25 for 5" diameter= 1.20 or 20% increase in L10 life.

Note: In addition to increased predicted bearing L10 life, larger diameter rolls can increase idler wear life.

Figure 2-7 K3B= Effect of Roll Diameter on Predicted Bearing L10 Life (Based on the same belt speed)

Figure 2-8 K4A= Effect of maintenance on potential idler life

Figure 2-9 K4B= Effect of environment on potential idler life

Figure 2-10 K4C= Effect of operating temperature on potential idler life

Based on collective application experience by CEMA idler manufacturers these conditions are important in determining potential idler life. However, exact mathematical basis is subjective so contact your CEMA idler manufacturer for assistance.

96	2800	2800	2800	600

Notes for Tables 2-11 through 2-16

1. Troughing idler load ratings are for three equal length rolls.
2. Load ratings also apply for impact rolls.
3. Troughing idler load ratings are based on a load distribution of 70% on center roll and 15% on each end roll for all trough angles.
4. CEMA B and C ratings based on min. L10 of 30,000 hours at 500 RPM.
5. CEMA D and E ratings based on Min. L10 of 60,000 hours at 500 RPM.

## TRAINING IDLERS

Self-aligning idlers operate effectively when empty belt tensions are 200-lbs./in. or less. When empty belt tensions exceed this range, the belt becomes too stiff and makes training difficult. Belt loaded at high tensions and which generate detraining forces due to off-loading cannot be re-aligned with self-aligning idlers. Self-aligning idlers work effectively at low belt tensions to overcome small amounts of idler skew, which make narrow belts easier to train. Self-aligning idlers are especially needed on low tension reversible belts. Conveyor belts that are 48" and wider usually do not need self-aligning idlers even at low belt tensions because the weight of the belt has more training force than is obtainable with a trainer.

The removal of one return idler on each side of a self-aligning return to increase conveyor belt wrap on the idler will increase its self-aligning capacity. An alternative in removing the return idlers is to raise the self-aligner above the return belt line.

When self-aligning return idlers are used, they should be no closer than 12 belt widths from terminals and should not be located on vertical curves.

SELF-ALIGNER SPACING	INDOOR	FOR WIND AND RAIN
In line at standard spacing	200 ft.	150 ft.
(Returns removed to obtain maximum training)	150 ft.	75-100 ft.

## BELT CARRYING CAPACITY

The carrying capacity of a belt conveyor depends upon belt width, belt speed, and idler troughing configuration. The following information and charts will help you in selecting the proper size and style of idler.

- Define the material and its characteristics: Refer to Table 3-1 for weights in Lbs per Cu. Ft. and surcharge angles for some bulk materials.
- Select belt speed: Refer to Table 3-2 for maximum recommended belt speeds. The most economical selection usually dictates the use of maximum belt speeds.
- Select required belt width: Using Table 3-3 and the correct surcharge angle for the material being handled, select a belt width. Table 3-3 gives theoretical carrying capacities with various belt widths and idler troughing angles. Table 3-3 is based on a belt speed of 100 FPM and a material weight of 100 lbs. Per Cu. Ft. Footnote (1) on the bottom of page 145 tells how to calculate the capacities for other belt speeds and material weights. When determining belt width, belt speed, and troughing configuration, select the narrowest belt that will handle the largest material lumps and transport the required capacity without exceeding the maximum recommended belt speed.

# IDLER SELECTION PROCEDURE

**TABLE 3-1 - CHARACTERISTICS OF COMMON BULK**

MATERIAL	WEIGHT (LBS/FT <sup>3</sup> )	SURCHARGE ANGLE °	MAX. CONVEYING ANGLE °
Ashes, Coal, Dry, - 3"	35-40	25-30	22

	35°	Not Recommended						
	45°	Not Recommended						
24	20°	-	-	96	108	120	5	7
	35°	-	102	122	132	142	5	7
	45°	106	115	132	140	170	5	7
30	20°	-	-	157	175	195	6	10
	35°	-	167	200	215	232	6	10
	45°	175	187	215	230	244	6	10
36	20°	-	-	230	260	290	7	12
	35°	-	248	295	318	343	7	12
	45°	258	278	318	340	360	7	12
42	20°	-	-	320	360	400	8	14
	35°	-	344	408	442	475	8	14
	45°	358	386	440	470	500	8	14
48	20°	-	-	430	480	530	10	16
	35°	-	457	540	645	630	10	16
	45°	475	510	584	623	660	10	16

1. All capacities shown are for material weighing 100 lbs. per cu. ft. and moving on belt 100fpm. For other weights, capacity equals table capacity.

$$X \frac{\text{Wt./Cu. Ft.}}{100}$$

For other belt speeds, capacity equals table capacity (or calculated capacity).

$$X \frac{\text{fpm}}{100}$$

2. The surcharge angle is the angle formed between a horizontal line and a tangent to the material slope, both of which pass through the point where the slope meets the belt. Usually the surcharge angle is 10°-15° less than the angle of repose.

3. "Mixed with 50% fines" means at least half of the material must be less than one half the maximum material size.

**TABLE 4 SUGGESTED NORMAL SPACING OF BELT IDLERS**

# TERMS AND CONDITIONS

SUPERIOR INDUSTRIES, LLC (d/b/a Superior Equipment and as Superior Components)

1. **OFFER AND ACCEPTANCE.** Superior Industries, LLC's ("Seller") acceptance of Buyer's order to purchase products is expressly made conditional on assent to these Terms and Conditions, which along with the Sales Order constitute a binding "Contract" between the parties. This Contract constitutes the complete and final agreement between Seller and Buyer for the products. Any additional or different terms or conditions contained in any document furnished by Buyer, including but not limited to, any purchase order or any acknowledgment, are deemed to be material and are hereby objected to and rejected by Seller. If such agreement shall be deemed an offer or counter-offer by Buyer, Seller expressly rejects such offer or counter-offer and limits acceptance to these Contract terms and expressly objects to any different or additional terms proposed by Buyer. Any actual performance by Buyer or Seller thereafter shall be deemed a renewal of the offer contained in this Contract and acceptance of this Contract without change. In the event of a conflict between the terms of this Contract and the terms of any other document, the terms of this Contract shall control. This offer to purchase Seller's products is valid for thirty (30) days from the date of the Sales Order.

2. **PAYMENT TERMS.** All prices specified in this Contract are FOB Seller's designated location which constitutes delivery. All risk of damage to or loss of the products from any cause whatsoever shall pass to Buyer upon delivery, even if Seller arranges for shipment of the product. Unless otherwise expressly provided on the reverse hereof, payment shall be made within thirty (30) days from the earlier of the date of delivery or the date of an invoice, without discount. Any discount which may be expressly provided on the reverse hereof applies to the sale price of the products at the shipping point, and does not apply to any charges made for taxes, storage, loading or transportation. All payments shall be made in United States dollars. Interest will be charged at the rate of eighteen percent (18%) per annum, or the maximum interest rate allowable by applicable law, whichever is lower, on all unpaid invoices. Buyer shall pay all taxes and charges of any nature imposed by any federal, state, or local governmental authority by reason of the sale or delivery of the products whether levied or assessed against Seller, Buyer, or the products. Such applicable taxes or charges, if not included in this Contract, shall be invoiced separately. If, in Seller's opinion, reasonable doubt exists as to Buyer's financial condition, Seller may, at any time and without prejudice to any other remedies, suspend or terminate performance of any order, decline to ship, stop any material in transit, or require full or partial payment by Seller in advance.

3. **DELIVERY.** Any delivery or promise date indicated on the Sales Order is an estimate of the date Seller believes the products will be available for delivery, provided, however, Seller shall not be responsible for any delays in delivery.

#### 4. WARRANTY.

a. **Limited Warranty; Exclusion of Third Party Components.** Subject to the terms, conditions and limitations contained herein, Seller warrants only to the original Buyer that (a) Seller's new equipment products and Seller's new component products will not fail to operate in accordance with their respective specifications due to defects in material or workmanship during the period which ends two (2) years from the date of delivery, normal wear and tear excluded, and (b) Seller's new equipment products will not incur a failure of their respective structural components (i.e., trusses) due to defects in material or workmanship at any time during the period which ends five (5) years from the date of delivery, normal wear and tear excluded. The foregoing periods are sometimes referred to as "original warranty periods." The foregoing limited warranty does not apply to any part, portion or component of any product which is manufactured by a third-party ("Third-Party Component").

b. **DISCLAIMER OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY.** THE LIMITED WARRANTY SET FORTH IN THE FOREGOING PARAGRAPH IS THE SOLE AND EXCLUSIVE WARRANTY WITH RESPECT TO THE PRODUCTS. SELLER MAKES NO OTHER EXPRESS WARRANTY OF ANY KIND OR NATURE AS TO THE PRODUCTS OR THEIR PERFORMANCE EXCEPT FOR THOSE LIMITED WARRANTIES EXPRESSLY SET FORTH IN THE FOREGOING PARAGRAPH AND SPECIFICALLY DISCLAIMS ANY AND ALL REPRESENTATIONS OR WARRANTIES OF ANY KIND OR NATURE

CONCERNING THE PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY REPRESENTATION OR WARRANTY THAT THE PRODUCTS COMPLY WITH ANY LAW, RULE OR REGULATION. SELLER MAKES NO WARRANTIES WITH RESPECT TO ANY THIRD PARTY COMPONENT AND SELLER SPECIFICALLY SELLS SUCH THIRD-PARTY COMPONENTS "AS IS" WITHOUT ANY WARRANTY. FURTHER, SELLER MAKES NO IMPLIED WARRANTY OF ANY KIND OR NATURE WITH RESPECT TO ITS PRODUCTS OR ANY THIRD-PARTY COMPONENT AND SPECIFICALLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, OR COMPLIANCE WITH ANY FEDERAL, STATE OR LOCAL LAW, RULE OR REGULATION. IN ADDITION, SELLER EXPRESSLY DISCLAIMS TO THE FULLEST EXTENT ALLOWED BY LAW, RULE OR REGULATION ANY WARRANTY PROVIDED UNDER ANY FEDERAL, STATE OR LOCAL LAW, RULE OR REGULATION.

c. **Terms and Conditions of Warranty; Voiding of Warranty; Notice Requirements.** The limited warranties set forth above shall be null and void if (a) any alterations or modifications are made to a product, (b) a product is not maintained in strict compliance with the maintenance requirements set forth in the maintenance manual for such product or otherwise provided to Buyer of such product, (c) any repairs are made to a product which are not authorized by Seller in writing, (d) any failure of a product to comply with the above limited warranty is not reported to Seller in writing within thirty (30) days of the date such failure first occurs, (e) a product is operated after the failure of any warranty first occurs, (f) a product is used for any purpose other than for the purpose for which it was manufactured, (g) a product is not operated in strict compliance with the terms and conditions set forth in any operating manual for the product (including but not limited to exceeding the load bearing capacity of the product), (h) a product is abused or damaged, (i) Buyer fails to deliver the product to Seller for inspection and testing if requested by Seller or Buyer disposes of the product or any part or component on or before the sixtieth (60th) day after sending a written claim under the warranty to Seller, or (j) such failure of the limited warranty results from a failure of any Third-Party Component.

d. **Course of Dealing; Course of Performance; Usage of Trade.** No course of dealing or course of performance of Seller with respect to the products sold under this Contract or with respect to any of its products to whomsoever sold and no usage of trade shall be considered in interpreting this Contract or any part thereof and none of the foregoing shall be considered a waiver or modification of any such terms, conditions, disclaimers or limitation of the limited warranties or disclaimers contained in this Contract. No statement, whether written or oral, made by any employee, sales person, distributor, agent or contractor of Seller which is not set forth in this Contract shall be considered a representation or warranty with respect to any product, its specifications or its performance and all such statements are hereby disclaimed.

e. **Exclusive Remedies for Breach of Warranty.** The sole and exclusive remedy for any failure of any product to comply with the limited warranty set forth above or any other warranty imposed upon Seller by law, if any, shall, at the election of Seller, in its sole discretion, be either (a) the repair or replacement of the product or component which failed to comply with such warranty or (b) the refund of the purchase price of the product. Buyer is responsible for all labor costs in connection with the repair or replacement of any equipment or component product; however, Seller will be responsible for its own labor performed in connection with any repair of equipment products at Seller's location. Except as provided below, any repair or replacement shall carry the same warranty as the original product but only for the remainder of the original warranty period.

Buyer's exclusive remedy with respect to any claim arising out of or as a result of Third-Party Component shall be against the third-party manufacturer.

f. **Warranty Claims; Notice Requirement; Limited Time to Bring Claims.** Any and all claims under the above limited warranty shall be made to Seller only in writing and not later than thirty (30) days after the date the product first fails to comply with the above limited warranty but in no event later than the expiration of the original warranty period with respect to which the claim is being made. Any claim under the above

# TERMS AND CONDITIONS

limited warranty made after such period for making a claim shall be null and void. After receiving written notice of the warranty claim, Seller shall determine whether to (a) repair or replace the product or part or (b) refund the purchase price of the product. Seller may require Buyer to return any product or part thereof which Buyer claims to be defective to Seller at Buyer's cost for inspection as a condition to any claim under the above limited warranty. No product or part may be returned to Seller without Seller's prior written authorization. If a product which is returned is determined by Seller in its sole discretion not to have failed to comply with the limited warranty, Buyer shall pay costs of removal, repair and/or replacement for such product. If a product which is returned is determined by Seller in its sole discretion to have failed to comply with the limited warranty, Seller shall pay for all repair and/or replacement costs for such product (or refund the purchase price if so elected by Seller) and Seller shall reimburse Buyer for the reasonable costs of shipping the product or component to Seller.

g. Limitation on Liability for Breach of Warranty and Other Claims. If the warranty and the remedy for any failure of any product to comply with any warranty are deemed for any reason to fail their intended purpose, Seller's liability for any failure of any product to comply with any such warranty, together with any and all other liability, if any, arising out of or in connection with such product, including, but not limited to, all claims, whether in contract, tort, or otherwise, arising out of, connected with, or resulting from the manufacture, sale, delivery, resale, repair, replacement, or use of the product, shall not exceed the purchase price for such product. In no event shall Seller be responsible or liable to Buyer or any third party under any circumstances for any indirect, consequential, special, punitive or exemplary, damages or losses, including, but not limited to, damages for loss of profits, goodwill, use of the product or any other equipment or other intangible losses which may be incurred in connection with the product regardless of the type of claim or the nature of the cause of action, even if Seller has been advised of the possibility of such damage or loss. Any and all claims that Buyer has against Seller, whether or not Buyer is aware of such claims, must be brought by Buyer within thirty (30) days after the date that such claim first arose, but in any event within the applicable warranty period set forth above. Any claim not brought by Buyer within the applicable thirty (30) day period shall be deemed null and void.

5. INDEMNIFICATION. Buyer will indemnify and hold harmless Seller, its affiliates and their respective officers, directors, employees, agents and other representatives and defend any action brought against same with respect to any claims, judgments, actions, suits, demands, damages, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees and legal expenses) associated with or arising from the ownership, use or operation of the products by Buyer or any third party, including without limitation, product liability, an international, federal or state occupational safety and health statute, or any other governmental regulations or laws.

6. TERMINATION OF PERFORMANCE. Buyer may cancel its order only with the written consent of Seller and upon terms that will indemnify Seller from any loss, damage and expense arising from such cancellation. Seller may terminate this Contract pursuant to Sections 2 and/or 11 hereof, and in such event, Seller shall have no further liability to produce or ship any products hereunder and shall have no liability for damages to Buyer or any third party.

7. TECHNICAL ADVICE. No obligation or liability shall arise out of Seller's rendering of technical advice in connection with Buyer's order of products. Any technical advice furnished, or recommendation made by Seller or any employee or representative of Seller, concerning any use or application of any products or parts furnished under this Contract is believed to be reliable, but Seller makes no warranty, express or implied, of results to be obtained. Buyer assumes all responsibility for loss or damage resulting from the handling or use of any such products or parts in accordance with such technical advice or recommendation. The selection of the products ordered, or design of any custom products, shall be Buyer's sole and ultimate responsibility, and Seller shall have no liability whatsoever for any design defects of custom products, or if the products ordered are unsuitable for Buyer's intended use. Any advice or assistance provided by Seller to Buyer in connection with Buyer's

selection or design of the products is at Buyer's risk, and Seller makes no representation or warranty whatsoever in connection with such advice or assistance.

8. ASSIGNMENT. Buyer shall not assign its rights or obligations under this Contract without the prior written consent of Seller, which consent may be withheld for any reason in the sole discretion of Seller. Any attempt at such assignment by Buyer without the prior written consent of Seller shall be deemed null and void. This Contract will be binding upon the parties hereto, and their successors and permitted assigns.

9. SECURITY INTEREST OF SELLER. Title to the products will not pass to Buyer until all required payments have been made to Seller. Until the purchase price and all other applicable costs and expenses are paid in full, Seller reserves a purchase money security interest in the products and the proceeds therefrom, and Seller thereby possesses the rights of a secured party under the Uniform Commercial Code. Upon Seller's request, Buyer shall execute all necessary financing statements and other documents evidencing this security interest with the appropriate state and local authorities. Seller is entitled to and is hereby granted reasonable access to Buyer's locations as necessary to exercise its remedies as a secured party.

10. GOVERNING LAW. This Contract shall be construed, interpreted, and governed by the laws of the State of Minnesota without regard to its conflict of laws principles. The exclusive forum for any disputes arising out of or relating to this Contract shall be any federal or state court sitting in the State of Minnesota. The parties irrevocably consent to such exclusive jurisdiction in such courts and to the proper venue therein.

11. FORCE MAJEURE. Seller does not assume the risk of and shall not be liable for failure to perform any obligation relating to the products caused by civil insurrection, war, fire, strike, labor stoppages or other labor disturbances, acts of God, acts or omissions of Buyer, acts or omissions of the United States Government, floods, epidemics, freight embargoes, shortages of fuel, energy or materials, failure of suppliers or subcontractors to satisfactorily meet scheduled deliveries, or any other cause beyond the reasonable commercial control of Seller.

12. NOTICES. Any notices, consents or other communications required or permitted under this Contract must be in writing and delivered personally, overnight air courier, registered or certified mail or facsimile. Unless otherwise stated in this Contract, notices, consents or other communication will be deemed received (a) on the date delivered, if delivered personally or by facsimile transmission; (b) on the next business day if sent via overnight air courier; or (c) three (3) business days after being sent, if sent by registered or certified mail.

13. SEVERABILITY; WAIVER. The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract. No waiver of any of the provisions of this Contract shall be deemed, or shall constitute a waiver of any other provision, whether or not similar, nor shall any waiver constitute a continuing waiver. No waiver shall be binding unless executed in writing by the party making the waiver. The Section headings included herein are for the convenience of the parties only and in no way alter, modify, amend, limit or restrict the contractual obligations of the parties.

14. NO THIRD-PARTY BENEFICIARIES; SETOFF. Nothing in this Contract is intended to, or shall, create any third-party beneficiaries, whether intended or incidental, and neither party shall make any representations to the contrary. Seller shall have the right to deduct from any sums it owes to Buyer, any sums or the value of any obligation owed by Buyer to Seller.

15. ENTIRE AGREEMENT. The terms set forth herein constitute the sole terms and conditions of the Contract between Buyer and Seller. Notwithstanding the foregoing or any other term of this Contract, to the extent this Contract conflicts with the terms or conditions of any written distributor agreement between the parties, the written distributor agreement shall control. No other warranty, term, condition or understanding, whether oral or written shall be binding upon Seller, unless hereafter expressed in writing, approved and signed by Seller.

16. SURVIVAL. The provisions of Sections 3, 4, 5, and 7 through 16 shall survive the termination and performance of this Contract.
